 Want to help the country and world stay safe?

 The UK Intelligence Agencies, MI5, MI6 and GCHQ, work together to keep the country safe. Their highly trained staff use cutting edge techniques to uncover and stop plans to harm our people, buildings and computer systems, both in the UK and around the world.

 Whilst all three Agencies have the same mission, each Agency has a different set of tools they can use and each one focuses on a slightly different area. MI5 stops threats from inside the UK, MI6 protects our people overseas and GCHQ looks after our Cyber security. It's incredibly important work, although most people will never know what they do.
